The new Independent claim 1 is allowable over the prior art of record. Independent claim 1 recites the limitations of calculating the distance between one point at a time and a connecting line segment as the distance to the start or end of the connecting line segment if the perpendicular from the given point to the straight line containing the connecting line segment is not situated on the connecting line segment. This singularity preserving method, useful in cases of pronounced curvatures, was not encountered in a search of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
